

DESIGNED LOGISTICS SOLUTIONS

4PL[®]
CENTRAL
STATION

For our European Logistics Consulting Team, we are looking for a

Logistics Procurement Analyst (m/f/d)

at our offices in **PL-Poznan**

WHO we are – 4PL Central Station Group

We are the leading provider of fourth party logistics services (4PL) in Europe and act as a general contractor, designing and operating customised logistics solutions with our extensive logistics expertise. The 4PL Central Station Group currently employs more than 200 logistics professionals at several subsidiaries in Asia and Europe.

Main Tasks:

Reporting to the European Consulting Manager, you will contribute to comprehensive logistics procurement projects for our customers all over Europe. Your task will be to analyze logistics data and to combine it with related cost positions and structures. With your analytical skills and market knowledge we will facilitate best-in-class logistics solutions for our clients. You will be a vital part of our organization and the enabler of successful procurement strategies.

Applications from both Junior and Senior people are welcome. Where as a Senior you will take over full responsibility of procurement projects, whilst you will start contributing to projects as a Junior. A Senior may also successively obtain leadership for Juniors and provide guidance and mentorship.

WHO we look for – Your tasks and area of responsibility

- (Data) preparation for logistics and transport tenders
- Evaluation of Logistics Service Providers (LSPs) offers
- Scenario creation to identify best solutions
- Analysis of customer movement data (sales and purchase orders)
- Matching of data from different sources and in different formats to enable transparent and efficient procurement activities
- Analysis of transport & logistics data (shipping profiles, volume and cost reports, etc.)
- Identification and evaluation of saving potentials
- Contribution to Tender Management / Request for Quotation (RFQ) projects
- Support and consulting of our customers in the area of transport and logistics data standardization, enrichment and analysis
- Support for LSPs participating in procurement projects (e.g. tenders)
- Obtaining responsibility for tender project phases (e.g. data preparation and bid evaluation)

WHAT we expect – Your personal profile

- Experience in logistics and supply chain industry and/or background in procurement departments of industrial or trade companies
- Good knowledge of (logistics) procurement processes and tender management
- Having background in tender management functions of LSPs is preferred
- Experience with e-sourcing tools and platforms is a plus
- Bachelor Degree in Business Administration or Logistics (or equivalent) is a plus
- Proficient in MS Office, especially in Excel & Access where advanced skills are required
- Analytical mindset, result oriented and customer-focused personality
- Ability to work with and meet deadlines
- Quick comprehension with a straight-forward-approach to deliver standardized results, where you drive the standardization and the efficiency gain for your area of responsibility
- Team player with the ability to also work and deliver results on your own
- Good knowledge of the English language (written and verbal communication)
- Basic project management skills are a plus

Career Opportunity:

You will have the opportunity to work for a dynamic and growing company with strong empowerment culture. You will be part of the European Consulting Team with a lot of international exposure and various internal and external stakeholders.
