

DESIGNED LOGISTICS SOLUTIONS

4PL[®]
CENTRAL
STATION

For our European Logistics Consulting Team, we are looking for a

Supply Chain Network Analyst (all genders)

at our offices in **PL-Poznan**

WHO we are – 4PL Central Station Group

We are the leading provider of fourth party logistics services (4PL) in Europe and act as a general contractor, designing and operating customised logistics solutions with our extensive logistics expertise. The 4PL Central Station Group currently employs more than 200 logistics professionals at several subsidiaries in Europe. Our Polish site in Poznan is one of the new subsidiaries of the Swiss Central Station AG.

Main Tasks:

Reporting to the European Consulting Manager, you will execute and lead comprehensive supply chain analyses for our customers all over Europe. You will acquaint yourself with complex ERP data of our customers and will combine it with transport and logistics data. You will simulate supply chains with different parameters and requirements to support the well-founded evolution and transformation of our customer's logistics organization. This way you will be a vital part of our organization and the backbone of our customer solutions. Applications from both Junior and Senior people are welcome. Where as a Senior you will lead projects, present the results and develop our services and solutions, whilst you will start contributing to projects and lead sub-projects as a Junior. A Senior may also successively obtain leadership for Juniors and provide guidance and mentorship.

WHO we look for – Your tasks and area of responsibility

- Analysis of customer data (order data, SO/PO, master data, movement data, etc.)
- Analysis of transport & logistics data (shipping profiles, volume and cost reports, etc.)
- Execution of logistics optimization studies (center of gravity, shipment consolidation, route planning, multi-level supply chain & network analyses)
- Creation, evaluation and comparison of result scenarios
- Simulation of cost and service development (lead times, performance adherence, etc.)
- Identification and evaluation of saving potentials

WHAT we expect – Your personal profile

- Bachelor Degree (B.A. or Logistics) or experience in logistics and supply chain industry and/or background in respective departments of industrial or trade companies
- Proficient in MS Office, especially in Excel (and the power query functions) & Access (advanced skills)
- Good understanding of ERP (data) environment
- Experience with analytical tools and apps around supply chain planning and optimization is a plus
- Team player with the ability to work and deliver results on your own, as well as ability to work with deadlines
- Basic project management skills, know-how about logistics procurement and tender management processes

Career Opportunity:

You will have the opportunity to work for a dynamic and growing company with strong empowerment culture. You will be part of the European Consulting Team with a lot of international exposure and various internal and external stakeholders.
